

Balmoral State High School

Address: Cnr Thynne and Lytton Rds, Morningside QLD

Website: balmoralshs.eq.edu.au

Phone: +61 7 3823 8588

Year established: 1958

Number of students: 900

Balmoral State High School is one of the limited Aerospace Gateway schools in Queensland to accept international students, enabling students access to partnerships with Aviation Australia and Boeing Australia offering real opportunities and industry experience with scientists and engineers on real projects.

Located in a leafy pocket of Brisbane, five kilometres from the Brisbane city centre, with strong community engagement and values, the local community is characterised by distinctive Queensland architecture, beautiful city views and river access. There are many community activities available including hockey, football, rugby, netball, water polo, sailing and cultural and intellectual pursuits.

At Balmoral, each student is treated as an individual which ensures personal attention for every student – academically, culturally and socially. The International Student Program is a distinctive feature of our school. We value diversity and believe that as citizens of a global community, our school is enriched by the cultural interchange offered by this program.

Special programs

- › Aerospace (Senior subject) and Aviation (Junior subject)
