Year established: **2021**

Number of students: **962**

At Brisbane South State Secondary College, we are setting the new standard for education, readying curious minds and open hearts to realise their desired future and inspire positive change.

Creating an environment built with technology, creativity and flexibility in mind, we are reshaping the traditional classroom setting to encourage independent thought – with our unique curriculum supported by the best and most respected research facilities and institutions in Australia.

By acknowledging and respecting every student's inherent differences, we will equip our future generations with the flexibility and agility they need to achieve their own inner greatness.

## Learner-preneur

Our unique Learner-preneur Program has been collaboratively created by our staff to engage students as genuine learning partners, and empower them to be agentic learners so that they can create their desired future. As Learner-preneurs, students undertake inquiries during dedicated time each day to discover their passions, pursuits and purposes through exploring how they find meaning and fulfillment. Students search and discover their individual learning and wellbeing successes.

## Biomedical Science Academy

In collaboration with The University of Queensland (UQ), our Biomedical Science Academy will provide tailored programs in science, technology, engineering, mathematics and medical science STEM(M) to open new academic pathways and learning opportunities for our students.

## Australian Football League (AFL) Academy

Delivered in partnership with AFL Queensland and the Brisbane Lions, our AFL Academy gives students the exclusive opportunity to be exposed to high-quality training and regular participation in AFL Queensland competitions, alongside their academic studies.

### International Baccalaureate

Successful learners at Brisbane South State Secondary College know themselves and are lifelong learners. They are confident, health-focused, self-directed global thinkers who are passionate about their desired future. Our International Baccalaureate Diploma Programmes foster this desire to learn and prepare our students for a life of excellence. Our college also offers a unique career program that allows students to combine their academic and professional interests, equipping them with future-ready skills for their chosen career pathways.
