Kelvin Grove State College is a Prep to Year 12 college leading the way in innovation and state education. Our curriculum is progressive, inclusive, innovative and caring, while still incorporating the core elements of education that have traditionally been essential for success.

We have exceptional academic and university programs and futures-focused industry partnerships and pathways.

Our accelerated pathways to universities, including Queensland University of Technology (QUT) with whom we share a geographic boundary, meet the needs of a wide range of students.

We have welcomed international students for over 20 years and have developed highly effective support programs, including excellent language support for all students.
