**Phone:** +61 7 3823 8500

**Year established:** 1958

**Number of students:** 800

Balmoral State High School offers you real opportunities with our business partnerships and our reputation for excellent academic results.

Our school is six kilometres from Brisbane's central business district, in a leafy area, just 1 kilometre from the beautiful Brisbane River and close to popular shopping and dining.

We are the only Queensland school that has a partnership with the aerospace company, Boeing, so you can work with scientists and engineers on real projects.

You can enjoy the many beautiful parks near our school, and join us on school trips to places in Brisbane and around Australia, giving you many opportunities to make friends with Australian students.
